

MEMORANDUM FOR: SAA/USG

SUBJECT: [REDACTED]

1. The attached list of supplies and services required for subject Project was submitted to this Office for concurrence. A review has indicated what appears on the surface to be excess quantities and costs. Experience raises the question as to security connotations where Agency personnel enjoy greater luxuries than others operating under the same cover, etc.

2. Much time and effort could be saved were the case officer involved to be brought together with a representative of the Planning Staff, Office of Logistics, to work up these estimates. In this way the Office of Logistics would be able to obtain sufficient information to use as a yardstick in concurring in such requests expeditiously.

3. In view of the above, it is recommended that the project estimates be revised in coordination with my Planning Staff.
